Brands get dozens of copy-pasted messages a week. A pitch gets a reply when it shows you looked at the product and offers one specific idea. Fill every [bracket] with something only you could write after opening their page.

Before you send: 5 minutes

1. **Watch their last 5 posts**
   Open the brand's Instagram or TikTok.
2. **Pick one product**
   Write one sentence about who it is for.
3. **Check the Meta Ad Library**
   If they run ads, they already pay for video.
4. **Find the right person**
   Marketing manager, founder of a small brand, or the "collabs" email in the bio.
5. **Link one portfolio video**
   The one closest to their product.

Subject: **3 hook ideas for** [product name]

Hi [Name],

I'm Cimey, a UGC creator from Indonesia. I make vertical videos for [category] brands, including [brand 1] and [brand 2]. Portfolio: [link]

After looking at [product], here are 3 hooks I would film:

1. "[e.g. I tried every [product type] under $20 so you don't have to]"
2. "[e.g. POV: your skin after 7 days with [product]]"
3. "[e.g. What I wish I knew before buying [product type]]"

I film on a phone in natural light and deliver 9:16 files with captions, ready for TikTok and Meta ads. If one fits your next campaign, I can send a short plan.

Thanks for reading,

Cimey

2 A subject line with the product name gets opened more often than "Collaboration inquiry".

Hi **[Name]**, following up on my message about **[product]**. I put together a quick idea in case it helps: **[one line, e.g. a 15-second get-ready-with-me using your new serum]**.

If now is not the right time, no problem at all. Could I check back in a month?

05 App or AI tool pitch

App and AI brands buy screen demos and honest first impressions. Show you can explain the product fast.

You → Brand — Email

Hi [Name],

I'm Cimey, a UGC creator making screen-demo and talking-head videos for apps and AI tools, including [example brand]. A recent one: [link]

I tried [product] this week and what stood out was [specific feature, e.g. how fast it turns a voice note into a summary]. I would build a 25-second video around that.

If you like, I can send a one-page plan and you can decide if it fits your next ad round.

Hook	Show	Close
"[e.g. I stopped typing my notes, here is what I do instead]"	Screen recording of [feature] in real use	One clear call to action to your trial or download link

- [ ] The first 3 seconds explain the problem.
- [ ] The screen recording is clean and readable on a phone.
- [ ] The voice sounds natural, in the audience's language.
- [ ] You can deliver several hook variations of one video.

2 Bilingual creators have an edge here. Say you can deliver the same video in English and Bahasa Indonesia.
