Free UGC Pitch Template

Four steps from a blank message to a pitch you are happy to send, even if this is your first one.

- **4** steps, about 20 minutes
- **2** ready templates: DM and email
- **1** real example to copy the logic from

By Cimey · UGC creator · Pekanbaru, Indonesia

01 Four steps

Do them in order the first time. After that you will do it in five minutes.

1. **Research the brand (5 minutes)**
   Open their Instagram, TikTok or website. Note the main product, what they are running right now, anything new they launched, the tone of their content and whether they have worked with UGC creators. A brand notices at once when you do not know the product, and that is the main reason pitches get ignored.

2. **Prepare three things**
   Your tagline, your relevance hook, and one specific content idea. Details on the next page.

3. **Pick the template**
   Reached them through Instagram or TikTok: use the DM. Reached them through a marketing email: use the email.

4. **Follow up after 3 to 5 days**
   If nobody replied, send the short follow-up on page 4. Match it to the brand's tone and the place you are writing in.

02 Prepare three things

1 · Your tagline

Pick the line that fits you, or write your own.

UGC creator focused on [niche]

UGC creator with [X years] of experience making content

UGC creator who has already worked with several brands

2 · Your relevance hook

Answer one question: why am I a fitting person to talk about this product? Do I use it? Do I have a story that connects? Optional, but the closer the link, the better.

- Learning a foreign language → pitch a language app
- Sensitive skin → pitch a skincare brand
- Use it every day → say so

3 · One specific idea

Not “I can make content about your product” but “I want to make a video about [specific moment] that connects to [problem the product solves]”.

Language app	The first time I chatted with a native speaker after learning with this app
Skincare	How my skin looked after two weeks of using it consistently
Productivity app	How I keep several UGC projects moving with it

Be specific. Specific gets replies.

04 A filled-in example

Cimey → SakuraSpeak — Email

Subject: **UGC collaboration idea, Cimey**

Hi SakuraSpeak team,

My name is Cimey, a content creator making natural, honest videos about apps, productivity, lifestyle and travel.

I'm building my UGC portfolio and looking for brands to work with. I'm new to UGC, but I've been creating on my own page and I know how to make content that feels real to your audience.

I'm learning Korean and Chinese myself, so I know the road your users are on: the excitement, the struggle and the funny moments in between. That is the angle I would bring.

My idea: a relatable video about the real experience of learning a language, from the days when nothing makes sense to the small wins that keep you going. The kind of video where viewers think "that is exactly me" and get curious enough to try SakuraSpeak.

Portfolio: **[link]**

Tell me what you are looking for and I will send my rate card.

Best regards,

Cimey

! This is a guide, not a script. Do not paste it unchanged: a brand can tell in one line when a message was sent to everyone. What gets a reply is how personal and genuine it feels.
